SUMMARY

Frontend developer with experience building responsive web application using **Javascript**, **React**, **Html**, **Css**. Interested in creating **efficient** and **user-friendly interfaces** and contributing to real world projects while improving technical skills.

EDUCATION

University of Agriculture, Faisalabad

2020-2024

Bachelor of Software Engineering (3.59 cgpa)

PROFESSIONAL EXPERIENCE

Frontend Designer (Genius Mind zone)

Nov,2024 - Present

- Designed responsive and visually appealing web interfaces for multiple projects.
 - Created **UI/UX** designs to improve user experience.
 - Collaborated with developers to ensure designs were **accurately implemented**.
 - Optimized layouts and elements for **mobile** and **desktop** responsiveness
-

PROJECTS

Chat Application

Built a real-time chat application using React and Firebase. Added signup and login so users could create accounts, and used Firebase Realtime Database to handle messages and Firestore to store user information. Designed a responsive and easy-to-use interface that works well on both desktop and mobile devices.

Todo Application

Built a To-Do List application using React and Firebase. Users can add, update, and delete tasks, with all data stored in Firestore. Designed a clean and responsive interface that works well on both desktop and mobile devices.

SKILLS

Languages: JavaScript (Es6+) , Html, Css

Frameworks/Libraries: React, Bootstrap, Tailwind

Version Control: Git, GitHub

Other: Responsive Design, RESTful APIs, Problem Solving
